

Digital Technologies Policy

Internet, Social Media and Digital Devices

Rationale

This policy exists to provide a framework for safe, effective and accessible use of digital technologies.

Aim

To ensure that all students and members of our school community understand:

- Our commitment to providing students with the opportunity to benefit from digital technologies to support and enhance learning and development at Fairfield Primary School.
- Expected student behaviour when using digital technologies including the internet, social media, and digital devices (including computers, laptops, tablets).
- The school's commitment to promoting safe, responsible and discerning use of digital technologies, and educating students on appropriate responses to any dangers or threats to wellbeing that they may encounter when using the internet and digital technologies.
- Our school's policies and procedures for responding to inappropriate student behaviour on digital technologies and the internet.
- The various Department of Education (DET) policies on digital learning, including social media, that our school follows and implements.

Definitions

For the purpose of this policy, *digital technologies* are defined as digital devices, tools, applications and systems that students and teachers use for learning and teaching; this includes Department-provided software and locally sourced devices, tools and systems.

Scope

This policy applies to all students and staff at Fairfield Primary School.

Staff use of technology is also governed by the following Department policies:

- [Acceptable Use Policy for ICT Resources](#)
- [Cybersafety and Responsible Use of Digital Technologies](#)
- [Digital Learning in Schools](#)
- [Social Media Use to Support Student Learning](#)

Staff, volunteers and school councillors also need to adhere to codes of conduct relevant to their respective roles. These codes include:

- Fairfield Primary School's [Child safety Code of Conduct](#)
- [Victorian Teaching Profession Code of Conduct](#) (teaching staff)
- [Code of Conduct for Victorian Sector Employees](#) (staff)
- [Code of Conduct for Directors of Victorian Public Entities](#) (school councillors)

Implementation

VISION FOR DIGITAL LEARNING AT OUR SCHOOL

The use of digital technologies is a mandated component of the Victorian Curriculum Foundation – Year 10.

Safe and appropriate use of digital technologies, including the internet, apps, computers and tablets, can provide students with rich opportunities to support learning and development in a range of ways.

Through increased access to digital technologies, students can benefit from learning that is interactive, collaborative, personalised, engaging and transformative. Digital technologies enable our students to interact with and create high quality content, resources and tools. It also enables personalised learning tailored to students' particular needs and interests and transforms assessment, reporting and feedback, driving new forms of collaboration and communication.

Fairfield Primary School believes that the use of digital technologies at school allows the development of valuable skills and knowledge and prepares students to thrive in our globalised and inter-connected world. Our school's vision is to empower students to use digital technologies safely and appropriately to reach their personal best and fully equip them to contribute positively to society as happy, healthy young adults.

SAFE AND APPROPRIATE USE OF DIGITAL TECHNOLOGIES

Digital technologies, if not used appropriately, may present risks to users' safety or wellbeing. At Fairfield Primary School, we are committed to educating all students to use digital technologies in ways that respect the dignity of ourselves and others and promote full flourishing for all, equipping students with the skills and knowledge to navigate the digital world.

At Fairfield Primary, we:

- Use online sites and digital tools that support students' learning, and focus our use of digital technologies on being learning-centred.
- Use digital technologies in the classroom for specific purpose with targeted educational or developmental aims.
- Supervise and support students using digital technologies for their schoolwork.
- Effectively and responsively address any issues or incidents that have the potential to impact on the wellbeing of our students.
- Actively educate and remind students of our *Student Engagement Policy* that outlines our school's values and expected student behaviour, including online behaviours.
- Educate our students about the importance of privacy and security online and appropriate and inappropriate communication on digital platforms and provide students with opportunities to discuss and reflect on their own and others technology use (for example, when using *Google Classroom* as a platform for remote learning, teachers model appropriate use of language in the stream and may use any inappropriate behaviours as a teaching example or a topic for discussion in a class meeting).
- Educate our students on appropriate responses to any dangers or threats to wellbeing that they may encounter when using the internet and other digital technologies.
- Provide a filtered internet service at school to block access to inappropriate content.
- Refer suspected illegal online acts to the relevant law enforcement authority for investigation.

- Support parents and carers to understand the safe and responsible use of digital technologies and the strategies that can be implemented at home through regular updates in our newsletter, information sheets, website/school portal and information sessions.

All messages created, sent or retrieved on the school's network are the property of the school. The school reserves the right to access and monitor all messages and files on the computer system, as necessary and appropriate. Communications including text and images may be required to be disclosed to law enforcement and other third parties without the consent of the sender.

SOCIAL MEDIA USE

Our school follows the Department's policy on [Social Media Use to Support Learning](#) to ensure social media is used safely and appropriately in student learning and to ensure appropriate parent notification occurs or, where required, consent is sought. Where the student activity is visible to the public, it requires consent.

In accordance with the Department's policy on social media, staff will not 'friend' or 'follow' a student on a personal social media account or accept a 'friend' request from a student using a personal social media account unless it is objectively appropriate, for example where the student is also a family member of the staff.

If a staff member of our school becomes aware that a student at the school is 'following' them on a personal social media account, Department policy requires the staff member to ask the student to 'unfollow' them, and to notify the school and/or parent or carer if the student does not do so.

STUDENT BEHAVIOURAL EXPECTATIONS

When using digital technologies, students are expected to behave in a way that is consistent with Fairfield Primary School's *Statement of Values, Student Wellbeing and Engagement Policy*, and the *Bullying Prevention Policy*.

When a student acts in breach of the behaviour standards of our school community (including cyberbullying, using digital technologies to harass, threaten or intimidate, or viewing/posting/sharing of inappropriate or unlawful content), Fairfield Primary School will institute a staged response, consistent with our student engagement and behaviour policies.

Breaches of this policy by students can result in a number of consequences, which will depend on the severity of the breach and the context of the situation. This includes:

- Removal of network access privileges.
- Removal of email privileges.
- Removal of internet access privileges.
- Removal of printing privileges.
- Other consequences as outlined in the school's *Student Wellbeing and Engagement* and *Bullying Prevention* policies.

Communication

This policy will be communicated to our school community in the following ways:

- Available publicly on our school's website.
- Included in staff induction processes.

- Discussed at staff briefings/meetings as required.
- Made available in hard copy from school administration upon request.

Evaluation

This policy will be reviewed as part of Fairfield Primary School's 2-year review cycle in August 2023.

This policy was ratified by School Council in August 2021
